Water	1.0 L/day	7.14	2.14

Risk flags

Poor sleep · Medium
Reports 5.0 hours of sleep a night, below the recommended minimum of 6 hours.

Low water intake · Low
Reports drinking 1.0 litres of water a day, below the recommended 1.5 litres.

Obese (BMI) · Medium
BMI of 25.7 is at or above the Asian-Indian obese cutoff of 25.0.

Possible obesity risk · Medium
Possible risk, for doctor review: a BMI of 25.7.

Recommendations

SLEEP

Aim for 7-8 hours of sleep each night, keeping a consistent bedtime and wake-up time.

रात में 7-8 घंटे की नींद का लक्ष्य रखें, एक समान सोने और जागने का समय बनाए रखें।

Sources: general guidance

HYDRATION

Drink adequate safe water each day and, in hot weather, choose beverages like buttermilk, tender coconut water, or lemon water instead of sugary soft drinks.

प्रति दिन पर्याप्त सुरक्षित पानी पिएँ और गर्म मौसम में शर्करा युक्त सॉफ्ट ड्रिंक्स के बजाय छाछ, नारियल पानी या नींबू पानी जैसे पेय चुनें।

HYDRATION

If the safety of tap water is uncertain, boil it before drinking to ensure it is safe.

यदि नल के पानी की सुरक्षा अनिश्चित हो, तो उसे पीने से पहले उबालें ताकि वह सुरक्षित हो।

PHYSICAL ACTIVITY

Aim for 20–40 minutes of moderate-intensity activity (e.g., brisk walking) plus 10–20 minutes of vigorous activity daily, which supports metabolism and weight control.

प्रति दिन 20-40 मिनट मध्यम-तीव्रता वाली गतिविधि (जैसे तेज चलना) और 10-20 मिनट तीव्र गतिविधि का लक्ष्य रखें, जो मेटाबॉलिज्म और वजन नियंत्रण में मदद करती है।

PHYSICAL ACTIVITY

Include regular strength-training or yoga with breathing exercises to preserve muscle mass and boost metabolism.

मांसपेशियों की मात्रा बनाए रखने और मेटाबॉलिज्म बढ़ाने के लिए नियमित शक्ति-प्रशिक्षण या योग के साथ श्वास अभ्यास शामिल करें।

DIETARY BALANCE

Limit foods high in sugar, fat, salt, and ultra-processed items, focusing on whole grains, millets, pulses, vegetables, and fruits to help reduce abdominal obesity.

शुगर, वसा, नमक और अल्ट्रा-प्रोसेस्ड खाद्य पदार्थों से भरपूर भोजन को सीमित करें, और साबुत अनाज, बाजरा, दालें, सब्जियाँ और फल पर ध्यान दें ताकि पेट की मोटापा कम हो सके।
